Dear Harold,

Were you under CIA observation during the Nixon administration? If so, would such data fall under any of the Watergate related investigations?

The bottom line is not written.

I feel it is still the tip of the iceberg.

How many other Presidential prosecutions were there?

Why was Nixon so concerned about the exposure of Bay of Pigs figures?

Could the J.F.K. assassination be involved in that Watergate figures had knowledge of after the fact?

What do you think?

Sincerely,
